

The origins of the Group* MoserFriends go back to the year 2004 with the foundation of the company Moser & Correia Lda. in Portugal. In the early years, the business primarily focused on the watches product range.

Since its foundation, the company has experienced very positive growth. In 2007, we complemented our product range by including the jewelry and perfume sectors. Additionally, we were able to expand our business activity internationally in the B2C and B2B.
